- How Do I manage my brand

## INTRODUCTION TO MYSELF

I am Sasmitha Fernando, I celebrated my 20<sup>th</sup> birthday few months before on 21<sup>st</sup> of February. I was born and raised in Negombo, and I studied at St. Peter's College Colombo 4, Negombo Branch. I did my Advance levels in Commerce stream with ICT on 2020 and ordinary level in 2017. There are 4 members in my Family, father, mother, myself, and my sister.

I successfully completed the Integral Educational Academy Examination with a distinction, and I was selected as the best first runners-up all-rounder student from Integral Educational Academy. When Considering about my professional qualifications, I worked for 6 months as an Accounts assistant at a Private Company. After facing many challenges in my life, Finally I decided to continue my academic life with NSBM in 2021.

When talking about myself I'm a person who is always willing to face challenges in life cause when I look back about my past, I always feel that I've learn so many things in my life by facing challenges. I'm a character who always thinks twice before taking decisions and a punctual responsible guy who can works and manage things under pressure.

## About My School

Once Nelson Mandela said that **"Education is the most powerful weapon which you can use to change the world"**

I think that school education is one of the main essential things that we gain and experiencing for limited time in our lives, my school gave me privilege for experiencing that great wonderful opportunity in my life.

My school is St. Peter's College Colombo 4 Negombo Branch which was started on 14<sup>th</sup> January 2003 as a branch of St Peter's college Bambalapitiya. I successfully completed my ordinary levels in 2017 and my advance level in 2020.

School teachers and my colleagues helped me to achieve my exam results and I highly appreciate their brilliant efforts. In my schooling time I associate many temporary people in my life so as I'm new to the university life. I got lots of friends in my schooling time.

I'm a former basketball player in St. Peter's college, who had played national schooling matches representing alma mater. I was the champion in Judian Instrumental Emulation 2015. I'm a former member of English drama society in my school. In all the time I was always dedicated to serve my school in all possible ways by engaging in extracurricular activities in school.

I was very popular among my colleagues and teachers, I always been a very hardworking and conscientious student who successfully maintained a very good rapport with my teachers and my colleagues. If there is a time machine, I would like to run the time to those good old days which I was used to chillout with my school friends and I really miss that.

## About University Life

Once an African Minister Malcom X Told that "Education is the passport to the future, for tomorrow belongs to those who prepare for it today"

I agree with that quote cause from a university we always expecting more facilities related to education as well as other extra facilities which are useful for student, by considering all the facts I took a perfect idea to start up my university life with NSBM (National School Of Business Management) As an undergraduate It's a new experience in my life to gain and polish my knowledge with the help of an Internationally recognized university. Doing a degree is worth in both present as well as in future for any student.

I selected NSBM as my Future university, Cause It's an Internationally recognized university which provide UGC degree programs as well as Internationally linked University degree programs which we can get access within in Sri Lanka, as a Sri Lankan It's a great opportunity for students who are willing to continue their higher studies in Sri Lanka. I joined NSBM for the June Intake; at present I'm following a Management Information System degree.

Before I select NSBM, I did some research about other private universities in Sri Lanka, after many facts I decided to select NSBM due to the latest technological teaching strategies and it provide all the best facilities. At present due to the pandemic situation, we are attending to online lectures, It's also a new experience for us. Lecturers are always using effective and best ways for teaching but according to my opinion I like to attend for physical lectures in that beautiful premises.

Every action has a opposite and equal reaction, so in this situation we have gained a brilliant opportunity that we cannot get by attending to physical lectures, that's the recordings. By attending to online lectures, we can access lecture recordings more than one time, so it helps us to clarify this very easily until we get that right by hearing for lectures more than one time. We have privileged to join for various clubs and society in NSBM and that's also a new experience for me. After the pandemic situation I hope the university will be open for students as soon for physical lectures. I really enjoy the modules and lectures which are coordinate through online.

## SWOT Analysis

In life, Strengths, Weaknesses, opportunities and threats are common for every human being but we must always try to improve our strengths and reduce our weaknesses then some of our Opportunities may increase, and threats will decrease up to a certain level.

### STRENGTHS
